- Submit names and contact information for resource partners in our region by this Friday and lists will be combined.
- Being listed as a provider means your organization will commit to making connections for services to the reentry population.
- Still a priority: The 2021 goal - to move the Reentry Roundtable to a Reentry Council with assistance from State Reentry Specialist, Tanesha Kelly.
- A website to house all of the reentry information we collect will be on kerrtarworks.com.
- Tentative date for the virtual resource fair is sometime in April - 3 more meetings to plan before the event.
